EXPERIENCE

2024 – Present **BrightLocal** (Team Lead, Senior Full-Stack Engineer)

- AI, n8n, Vercel, DDD, PHP, Symfony components, Doctrine, REST API, CQRS, React, Redux, Typescript, Tailwind, RabbitMQ, Docker, ElasticSearch, Git, Scrum, Design System, Prometheus, Metabase, Figma
- Provided mentorship and line-management, raised team velocity, drove AI adoption, and owned the shipping-vs-quality trade-offs. Increased technical bar, process quality, monitoring, and standards.

2018 – 2024 **Leon Software** (Senior Full-stack Engineer)

- PHP, Symfony, CQRS, DDD, React, ReasonML, Rescript, Flow, Javascript, Typescript, SCSS, JSON RPC API, Doctrine, GraphQL, Docker, RabbitMQ, Git, Scrum

2016 – 2018 **Notimeo** (Owner, Full-stack Developer)

- PHP, Symfony, Javascript, jQuery, React, Docker, Responsive Web Design, REST API, DotPay integration, ElasticSearch, Adobe Photoshop;
- Team management, work management, contact with clients;

2013 – 2016 **Vobacom Sp. Z O.O.** (Project manager, Full-stack Web Developer)

- Drupal 7 CMS, Javascript, jQuery, Responsive Web Design, WCAG 2.0, Adobe Photoshop;

2012 – 2013	**Digate S.A.** (Full-stack Web Developer)

- Kohana framework, jQuery, Bootstrap, Responsive Web Design, Adobe Photoshop;

2005 – 2012	**GIEROmaniak.pl** (PR, Editor-in-Chief, Full-stack Web Developer, Corrector)

- Designed and shipped a custom PHP CMS the editors used daily.
- Started in journalism — news, articles, reviews — and ended up running the editorial team and the publishing platform itself. Organised online and offline esports tournaments: clients, partners, sponsors, and the players themselves.

SELECTED WORK

2021 – Present	**SCUM-MAP.COM** (Private Project)

- PHP, Symfony, CQRS, DDD, React, Redux, Typescript, Doctrine, GraphQL API, Docker, Git, Prometheus
